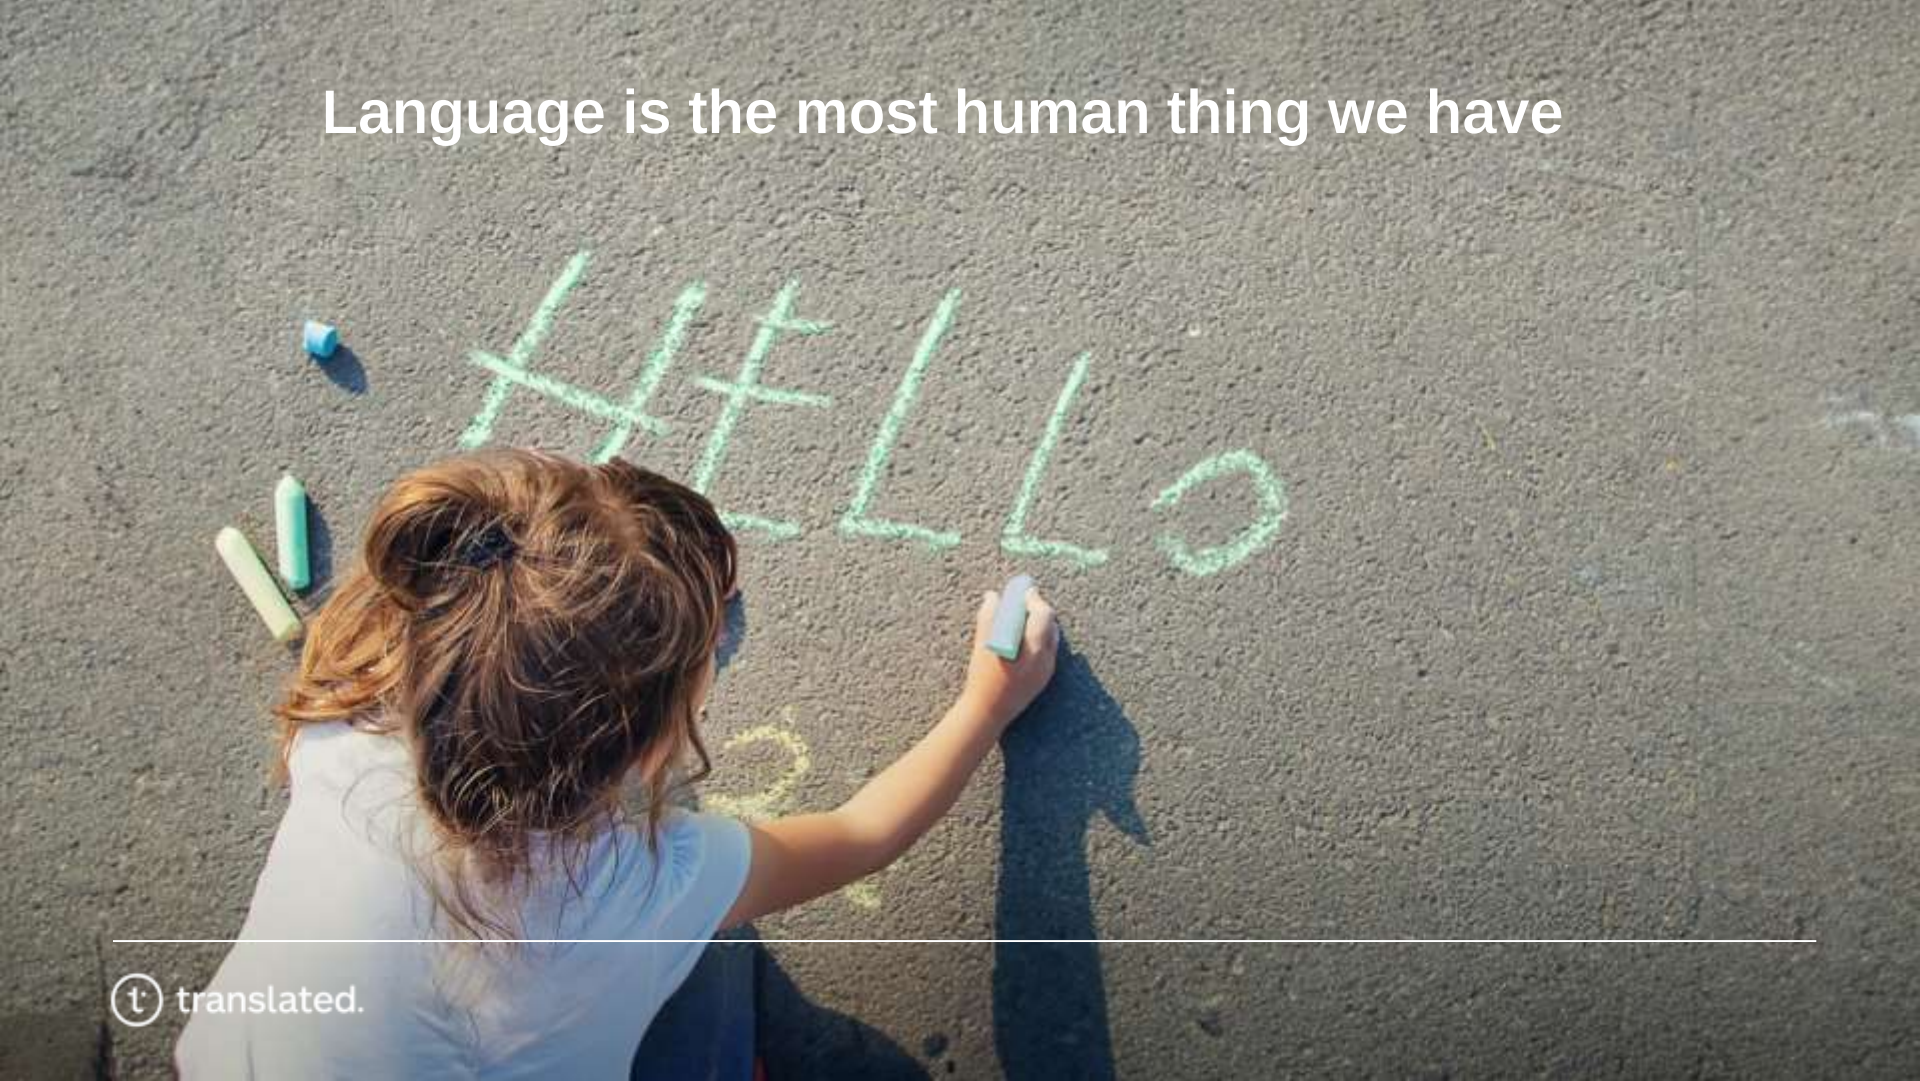
Why Translation?

01

translated.

Language is the most human thing we have



Language is
the most important
factor for evolution.

Machine will allow us
to understand.

When we need to be understood,
Machines are not good enough yet.

What makes humans so special?

Humans are complex and beautiful
Our journey to understanding them.

We are out of the race.

Here we understand
that it is not important
to win or to participate.
but to finish and solve problems
with focus, obsession and courage.
Just like a startup.
